National Incident Management System (NIMS)

FEMA

Emergency
Management
Institute

The ICS/NIMS basic training is done online with FEMA. Just go to FEMA.gov and follow the steps to take the ICS 100, 200, 700, 800 classes online. Our yearly NIMS report for preparedness is coming up soon. The additional radio club members who can get these online classes done this spring will be fantastic! Classes -

Amateur Radio Operators

Amateur radio operators, better known as Hams, have been included in Emergency Management disaster planning. These people have the responsibility of providing backup communications in the event of a failure of the government system. They are also a ready resource for supplementing communications at large disasters or emergencies.
